ORGANIC MUSHROOM EXTRACTS

From 100% Fruiting Bodies

NEW!

All our certified organic mushrooms are cultivated on wood-rich substrate which is as close as possible to their natural habitat, contributing to a wider spectrum of essential bioactive nutrients. We use only 100% fruiting bodies, not mycelium which can lead to a more starchy extract. Fruiting body extracts were proven to be much richer in bio-active components, triterpenoids and polyphenols than mycelium extracted mushrooms. They also show a greater abundance of beta-D-glucans polysaccharides. Dual extracted and standardised to an impressive 50% polysaccharides content.

Ingredients: 100% Organic Mushroom Extracts from the Fruiting Bodies.
