ORGANIC LION'S MANE MUSHROOM EXTRACT

Lion's mane is an edible mushroom, with a long history of use in Traditional Chinese Medicine because of its bioactive compounds - polysaccharides (beta-D-glucans), diterpenoids (erinacines A-K, P and Q and hericenones A-H) and phenols.

- 50% beta glucan polysaccharides
- Cultivated on wood - rich substrate
- Diterpenoids and sterols
- Dual extraction from the fruiting bodies
- Non - GMO

Ingredients: 100% Organic Lion's Mane Mushroom Extract from the fruiting bodies (400mg)
Shell Capsule: Hypromellose

60 Vegetarian Capsules (400mg)

ORGANIC MAITAKE MUSHROOM EXTRACT

Made using temperature controlled dual extraction technology of 100% organic maitake fruiting bodies which have been cultivated on wood-rich substrate.

- 50% beta glucan polysaccharides
- Cultivated on wood - rich substrate
- Triterpenoids and polyphenols
- Dual extraction
- No - GMO

Ingredients: 100% Organic Maitake Mushroom Extract from the fruiting bodies (380mg)
Shell Capsule: Hypromellose

60 Vegetarian Capsules (380mg)

CERTIFIED ORGANIC MUSHROOM EXTRACT CAPSULES

All our certified organic mushrooms are cultivated on wood-rich substrate which is as close as possible to their natural habitat, contributing to a wider spectrum of essential bioactive nutrients.

We use only 100% fruiting bodies of the mushrooms, not mycelium that can lead to a more starchy extract. Fruiting body extracts were proven to be much richer in bio-active components, triterpenoids and polphenols than mycelium extracted mushrooms. They also show a greater abundance of beta-D-glucans polysaccharides.

Each extract is obtained by temperature-controlled, dual extraction technology to access the precious functional components within the mushroom cells; supporting the highest levels of bio-active concentration to be captured. Each extract is expertly standardised to an impressive 50% polysaccharides content with a significant amount of triterpenoids and polyphenols.

Suitable for vegetarians and vegans. Naturally free from gluten and wheat.
No added starch, mycelium, or grain of any kind
NO ARTIFICIAL COLOURS, PRESERVATIVES, SWEETENERS OR FILLERS

ORGANIC CHAGA MUSHROOM EXTRACT

Made from the extraction of 100% fruiting bodies of organic, wild harvested chaga sclerotium grown on birch trees, chaga mushroom's preferred substrate.

- 50% beta glucan polysaccharides
- Cultivated on birch trees
- Triterpenes, sterols and polyphenols
- Dual extraction
- Non - GMO

Ingredients: 100% Organic Chaga Mushroom Extract from the sclerotium (380mg)
Shell Capsule: Hypromellose

60 Vegetarian Capsules (380mg)

ORGANIC SHIITAKE MUSHROOM EXTRACT

Cultivated on wood-rich substrate, this organic shiitake extract is made from the extraction of 100% organic shiitake fruiting bodies to provide a superior level of bio-available beta glucans and active nutrients.

- 50% beta glucan polysaccharides
- Cultivated on wood - rich substrate
- Triterpenes, sterols and polyphenols
- Dual extraction
- Non - GMO

Ingredients: 100% Organic Shiitake Mushroom Extract from the fruiting bodies (400mg)
Shell Capsule: Hypromellose

60 Vegetarian Capsules (400mg)

ORGANIC MULTI-MUSHROOM 8 EXTRACT BLEND

Cordyceps, Reishi, Chaga, Lion's Mane, Auricularia, Maitake, Shiitake and Agaricus

As well as our single species mushroom extracts, we also offer a specialised blend of eight high quality organic mushroom extracts, offering a high potency broad – spectrum formula, standardised for efficacy.

This powerful certified organic mushroom cocktail provides you with a potent combination of 8 dynamic mushrooms dual-extracted from concentrated fruiting bodies.

Ingredients: Organic Cordyceps Extract, Organic Lion's Mane Extract, Organic Chaga Extract ,Organic Reishi Extract, Organic Shiitake Extract, Organic Agaricus Extract, Organic Maitake Extract, Organic Auricularia Extract

Shell Capsule: Hypromellose

60 Vegetarian Capsules (400mg)

ORGANIC CORDYCEPS MUSHROOM EXTRACT

Our Organic Cordyceps Mushroom Extract Powder is obtained by dual extraction of the mushrooms fruiting bodies. Our organic cordyceps mushrooms are innovatively grown on vegan substrate to ensure maximum concentration of nutrients.

- 50% beta glucan polysaccharides
- Cultivated on vegan substrate
- Triterpenes, sterols and polyphenols
- Dual extraction
- Non - GMO

Ingredients: 100% Organic Cordyceps Mushroom Extract from fruiting bodies (400mg)
Shell Capsule: Hypromellose

60 Vegetarian Capsules (400mg)

ORGANIC REISHI MUSHROOM EXTRACT

Reishi is the most common of all the 'medicinal' mushrooms and used in traditional Chinese medicine for thousands of years. Cultivated on wood-rich substrate, duanwood, where reishi grows naturally - resulting in a potent and high-quality reishi extract with the most bio-active constituents available.

- 50% beta glucan polysaccharides
- Triterpenes, plant sterol, phytochemicals and polyphenols
- Dual extraction
- Non - GMO

Ingredients: 100% Organic Reishi Mushroom Extract from fruiting bodies (400mg)
Shell Capsule: Hypromellose

60 Vegetarian Capsules (400mg)
